AMERICAN TRANSPLANT FOUNDATION

TEN YEAR ANNIVERSARY IMPACT REPORT

LET'S DO EVERYTHING IN OUR POWER TO SAVE THE LIVES OF THE 118,000 AMERICANS AWAITING A LIFESAVING TRANSPLANT

OUR MISSION
To save lives by reducing the growing list of women, men, and children who are waiting for a transplant.

WE BELIEVE
That no one should die while waiting for a lifesaving transplant.

THE NEED
Today, more than 115,000 people are waiting for an organ transplant that can come from a living donor. In 2016, 5,476 people died before receiving an organ that could have come from a living person—5,476 deaths that were utterly preventable.

3 THREE TIERS OF SUPPORT
We proactively reduce the transplant waiting list by maximizing living donation through EDUCATIONAL, FINANCIAL, and EMOTIONAL SUPPORT.

We create opportunities nationwide for people to become living donors, with a focus on Colorado.

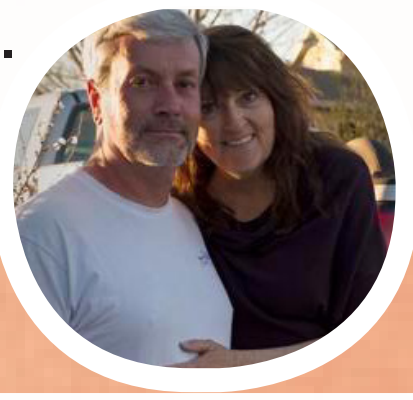
TESTIMONIALS

I see ATF as a **key player** in supporting recipients, donors, and their families through a very scary process.

Michele, ATF Mentee, Kidney Recipient



Speaking with a mentor was **monumental** for my donation. Without them, I wouldn't have had the comfort I did that allowed me to go through with my donation.

Mason, ATF Mentee, Living Kidney Donor

I was lucky enough to be able to donate my kidney to the love of my life in March. The American Transplant Foundation helped make it all happen and I will be **forever grateful.**

Elizabeth, ATF Grant Recipient, Living Kidney Donor
